Objective

Backend Developer with 1 year of experience specializing in Python, SQL, and automation solutions. Seeking to leverage my skills in backend technologies and business process automation to contribute to a dynamic development team.

Education

Bachelor of Technology (B.Tech)

RGPV University, Bhopal, Madhya Pradesh

Graduated: 2023

Major: Computer Science and Engineering

Experience

Python Developer (Automation)

Tata Consultancy Services (TCS), Indore, Madhya Pradesh

Dec 2023 – Present

- Developed and implemented automation solutions using Python, PowerShell, and SQL to streamline business processes.
- Automated repetitive tasks, improving operational efficiency and reducing manual work.
- Collaborated with cross-functional teams to translate business requirements into technical solutions.
- Utilized Python for task automation, error handling, and data processing, ensuring high reliability.
- Created PowerShell scripts and SQL queries for system administration and database interaction.
- Delivered automation scripts that contributed to operational performance improvements and cost savings.

Projects

Resume Builder Website

A web-based platform for users to create and download customized resumes. Built using HTML, CSS, JavaScript, and Python with Flask.

NewsMedia App

A news aggregation application that pulls real-time news content from multiple sources and displays it in an easy-to-read interface. Built using Python for backend functionality and integrated APIs for content retrieval.

Technical Skills

Programming Languages: Python, Java, SQL, HTML, CSS

Tools and Technologies: PowerShell, Flask

Databases: SQL Server, MySQL

Hobbies

- Coding and exploring new technologies
- Listening to music
