PROFESSIONAL SUMMARY

Passionate and dedicated Java Developer with strong experience in Java and Spring Boot. Known for a curious mindset and a continuous learning attitude, with a proven ability to deliver efficient and scalable back-end solutions. Skilled in building secure RESTful APIs, implementing authentication, and optimizing code quality. Committed to collaboration, innovation, and driving results in dynamic environments.

EXPERIENCE

Java Developer

Tata Consultancy Services - (SBI Client)

Mar 2024 – Present

- Built scalable REST APIs with Spring Boot, improving response time by 25% for SBI-PensionSeva (500k+ users).
- Integrated VLC and CBS modules, reducing data latency by 30%.
- Automated workflows, cutting manual work by 40%; optimized Oracle DB operations.
- Led DR drills ensuring full compliance with RTO/RPO benchmarks.
- Skills: Java, Spring Boot, REST API, Oracle DB, Microservices, Agile.

Associate Technical Consultant

Blueflame Labs

Jul 2023 - Nov 2023

- Developed Grant Community Website using .NET, Blazor & C#, reducing grant cycles by 40%.
- Synced Grant Community Website with Alliance Defending Freedom Legal portal, improving real-time accuracy.
- Fixed 50+ bugs, earning “Bug Destroyer” award.
- Skills: C#, .NET, Blazor, REST APIs, SQL, Debugging

PROJECTS

E-commerce Web Application | *Java, Spring Boot, Angular, JWT, REST API, MySQL*

- Developed a full-stack e-commerce solution using Spring Boot for backend and Angular for frontend, supporting product search, cart, and order management.
- Built secure user authentication system with JWT and implemented role-based access for Admin/Seller/Customer modules.
- Designed a responsive UI using Angular Material, improving user retention by 45% and enabling 100+ concurrent user interactions.
- Integrated modular microservices architecture with MySQL, reducing system coupling and improving maintainability.

Vocational Guidance System | *Java, Spring Boot, PostgreSQL, NLP, ML, REST API*

- AI-driven Spring Boot platform with PostgreSQL & NLP, 90% accurate career guidance.
- ML model for aptitude test analysis reduced decision-making time by 40%.
- Applied scalable system design principles for easy maintenance and future enhancements.
- Integrated Spring Security with JWT and BCrypt for robust user authentication.

TECHNICAL SKILLS

Languages: Java, C#, HTML5, CSS3

Frameworks & Tools: Spring Boot, Angular, .NET Framework, Hibernate, JSP, Thymeleaf, Blazor, Bootstrap, POSTMAN, Git

Databases: Oracle DB, PostgreSQL, MySQL

Security & APIs: Spring Security, JWT, BCrypt, RESTful APIs, Role-Based Access Control

Core Skills: REST APIs, Microservices, OOP, Agile, System Design, Communication

Problem Solving: 600+ DSA problems solved (LeetCode, GeeksforGeeks, HackerRank)

EDUCATION

Sushila Devi Bansal College of Technology, Indore

Bachelor of Technology in Computer Science and Engineering

RGPV, Bhopal

Aug. 2019 – May 2023
